HOME

Panospace ONE is the **perfect desktop 3D printer** for your home. Print everyday items, toys, kitchen supplies, spare parts, you name it...

EDUCATION

3D printing in schools is becoming more and more common. It is not just a tool for the students but also a new way to **be creative** for all ages.

OFFICE

Take your office to a whole new level. Instead of ordering samples, **3D print your own prototypes**. Come up with ideas and print them at once.
